

Truer Bougie/Introducer

Depth Marks 10cm, 20cm

Truer Medical's new Bougie is a latex free, calibrated introducer designed to ensure accurate distance insertion.

1. ET Tube Exchanger
2. Indirect Video Laryngoscope Intubations
3. Combines benefits of an introducer and stylet into one unit

Truer Medical's Bougie is the most adaptable, cost effective bougie available in the market.

- Low density polyethylene frosted finish sheath reduces friction and provides proper stiffness for ease of insertion
- Multiple Depth Marks
- Malleable for straight or coudé tip

Truer Medical, Inc. is the leading manufacturer of Temperature Sensing and Airway Management products "Made in America"!
